## DepoProvera Financial Policy

We offer 2 options for DepoProvera:

### **OPTION 1 – UTILIZING OFFICE STOCK**

We require that you pay the total cost of the DepoProvera and injection fee at each dose. The total cost is \$85. *We will file a claim of \$119 to your insurance. If your insurance reimburses the claim, you may have a credit on your account that will be used towards the \$85 due at your next dose. The amount of the credit will depend on the amount paid by your insurance, and may not be the full \$85. If there is no credit on your account, you will be required to pay \$85 at your next dose.*

<b><u>Procedure Code</u></b>	<b><u>Cost</u></b>
DepoProvera: J-1055	\$65 (Charge per dose)
Nurse Visit: 99211	\$34 (Charge per visit)
Injection Fee: 90772	\$20(Charge per injection)
<b>Total Cost per Dose: \$119</b>	

### **OPTION 2 – UTILIZING A PHARMACY**

The nurses can call the DepoProvera into the pharmacy of your choice. You can pick up the vaccination and bring it in for your injection. Please contact the nurse 48 hours prior to your appointment to ensure your prescription will be called in and ready to be picked up. We will not file the medication portion to your insurance company through our office.

**Injection Fee: \$20 (Charge per injection )**

\* Please feel free to contact your insurance company to check your policy's covered benefits. Please remember, what your insurance company quotes you is not a guarantee of benefits, but only a description.

\* We will not accept any insurance discount less than the actual cost of the vaccine.

\* You may use either option at anytime.

If you have any questions, please contact our billing office and we will be happy to assist you.

*The above prices are subject to change.*
